MEETING!!!!

12 - 28 - 76

Listening to hard rain with a strong desire to write this newsletter. Some of you will understand that first sentence; to you few people i dedicate this newsletter.

Let's straighten out a few things. The last real newsletter, nbt that junk i sent out about jerseys, (which by the way i want to thank you all for the cineli i was able to purchase withx that money), was called the . 4th issue of the year... i stand corrected it was the 5th issue. Since this is number six i was half right in my forecast that i would get out 12 issues this season. Aw okay, i may put out another one or two this year. Don't count on it.

So anyway you are reading the rough copy of this newsletter, and the finish copy. I am just stickin' the stencils in the ol' typer and putting down what ever, and whom ever comes to mind. That means insted of the usual bad spelling, you will get very atrocious spelling!!! The sentance structure won't be anything to write home about, and i'm not even sure, yet, that this will be worth sending out,. I am sure though that i will send it out and spend the clubs money, as i'm not about to make a second attempt at this...although it already looks as though i should. Oh well.

BLUE ASH CRITERIUM (a few comments and some results)

Warning:::There will be NO shealter from this storm, unless of course you quit reading right now.

On thewhole, in general, all in all, and basically, i would have to say the BAC was a very good race. It was good that cincinnati had two races this year. It was good that the Lions Club came out ok on the race,. It was good that our sponser, in his first year with the club, got to promote two races. It was good that the Queen City Wheelmen placed 2 riders in the top seven of the senior III&IV race, and placed 2 riders in the top seven of the Junior race. As i said it was a good race.

PHIL KENNEDY won his last race as a Junior. Phil ends a fantastic Junior record and must ride with the big boys next year. PHIL has undoubtedly had the best Junior career, to date of any Junior rider from Cincinnati. Glenn WOLF placed 7th in his last Junior race of his life, as he too will ride with the big boys next year. MARK LIMKE placed 4 in the senior III & IV race, that ended in a very wild sprint. JON SPICKER placed 6th in the senior III & IV race. JOHN MONTAG was right there in the III & IV race. JOHN was not fortunate enough to be seen by the pickers as some of us other riders were. Thanks PHIL jr.

RESULTS OF THE BLUE ASH CRITERIUM (as they were, or as there wern't)

JUNIOR MEN - 15.3 miles - 37:43

1. PHIL KENNEDY, Queen City Wheelmen/Montgomery Cyclery Clifton
2. Bill Brissman, Circle City Club
3. Richard Shyrook, Maumee Valley Wh.
4. Joel Stettina, Indy/USA Cool gear, Exxon
5. Randy Strong, Circle City Club
6. Tim Huneck, Franklin Bicycle Club
7. GLENN WOLF, Queen City Wheelmen/Montgomery Cyclery Clifton
8. Dave Pigott, Chillicothe Cycle Club

TAKE NOTE: There may be a lot of mistakes in this newsletter but the times of the senior races are not a mistake. The Senior III & IV race was a full 32 seconds faster than the Senior I & II. If the Junior time is doubled, as they rode only half as far as the Seniors, they come out with a 1:15:26. The Senior III & IV race was the fastest race of the day. The riders of that race deserve some recognition. The riders in the I & II race are no schmucks, they just didn't ride as fast as the III & IV. The III's and IV's should hold their heads up high! I's and II's and Juniors...shame shame shame!!!

JERSEYS ERSEYSJERSEYSJERSEYSJERSEYSJERSEYSJERSEYS!

Everything before this was typed at least a month ago. Exams are all over and i now have more news. Mainly about the jerseys. The club, that is you people out there, have ordered a total of 68 jerseys, and 22 pairs of shorts... 90 items!!! That all comes out to \$1338.34 spent by this fantastic club on clothing. The following is a list of what you ordered, what you put down for a deposit and what you OWE! Bring the balance to the next meeting which is tuesday december 28, 7:30...at the Kennedys.

The first number is the quantity and the second is the size. There are a few extra jerseys the club ordered, most of these are already sold. If you really have any hope of picking up one of the extra jerseys you had better come to the meeting, unless we already have your name, i don't really know who that would be though. This list may have a few mistakes in it do don't take it as gospel and if you think something is wrong check with me at the meeting. Mike albrinck you paid for a jersey for your wife but we didn't receive your order until we had already ordered, any hopes of getting one for your wife please come to the meeting.

 MEETING AT PHIL KENNEDY'S 12-28-76 7:30 call: 542-0348

The most important aspect of this meeting is electing officers. I have no intentions of running this year, and there is no way you will railroad me into it... even if you wanted to. I won't be in town most of the summer, no way can i do it!!! Some one out there must do it! I'll be glad to help all i can while in town. The job ain't that tuff if the work is distributed among many workers.

The people that have been the most help to me this ~~wxx~~ year were: Dell williamson licking stamps, and sending out your jersey order forms. Dan Humpert was quite helpful in too many ways to mention. There was that group of people that helped get the sponsorship together; Brian Jones, Phil Kennedy, Brad Lightbody, Dell William-son, me, rick janke, Watson Nordquist. Watson too was helpful in more ways than can be named. Brian Jones was resposiabile for getting the wed. nite. races off the ground. Glenn Wolf got the roller thing together down at convention center. Mark Vincient, not even an offical member or a racer, was that timer go many of you used in the time trials. Bill Lapthorn is resposiabile for printing this thing. Mark and Mike Limke are good listeners, and thanks for riding with me for the bube ash race Mark. Francisco Cardona did the cincy cry program cover. Bill Cal-lagher too many things to mention... especially helpful with the cincy cry. Cliff Hodgken... my western hills contact. Sam Francis was resposiabile for the high schobl time tiral sereis (sp), and sam also gave the club more new members than any other source, sam also has many good ideas on how to run this club... much better than anything anyone elses seems to come up with. Just nobody is ready to listen. Bill Froschauer was a fine treasuer (sp). Mike Griswold and the cincy cry. Greg Hanfbauer is a good listener and a candidate for treas. next year. The limkes actually are quite usefull for ideas... i'd like to see one of them run for the pres... mabey both of them. Rick Janke will give anybody a lot of feedback... good!

Brian Jones can be expected to give the club a good rep for his riding...but he should watch his mouth...almost as much as i should watch mine. Brad Lightbody has ideas he just won't stick with bicycling. John Montag will do anything. Jeffery Slutz is another good cincy cry worker...knows a lot. He and Bill Laphorn must get together John Wartenberg shouldn't have moved away.

Any way those are some of the people the next president can use to help him out. I thank them for the help they gave me, but the club, you people out there, is who should thank these people. I would never have done some of the things they did.

This club has been successful in some ways: We got the sponsership. We held two races. We boasted the membership over 80. We ran a good time trial series. We ran a good club road race series. We did well with the roller presentation. But. This club is teriably clickish! Until you peopel learn to ride, work, and race together this club will be nothing more than a sponsered club (if that), with a couple good riders that walk around with their noses up in the air, and a bunhh of has beens, could have beens, thinks they have beens, whis they weres, could have beens that think they are too almighty to communicate with the other members in the club and ride, do club work and race together...and if they would come out of the clouds may even win a few races together. IT'S A TEAM SPORT...IT'S A CLUB SPORT...and that is the only way you will win BIG in this sport!!!! Take it for what it is worth, but this club had better get it's act together!!! If you think you have ideas for this club, become the president and you can do what ever the hell you want to with the club. This club can be changed to what ever you like because nobdody else gives a damn! You can rip it down or you can build it up. I like to think i tried to build this club up, but its time for a new face...many new faces in running the club. It is really very easly done. If you have ideas and don't want to be president tell the president what you want to do or bring it up at a club x meeting and get permission to do it...then do it. I can assuer you of this: If you want something done the only way it will get done is to do it yourself! The only things i did for this club were the things i wanted to do. I took some advice, believe it or not, but usually what i did was done the way i wanted it done...because i did it. You do it and you can do it the way you want it done.

I could mention all the good things the club did this year, but that is not waht is important. What is important is what we will do next year to improve this club. There is so much more this club is capable off doing. This club has an advantage over most clubs as it ~~is~~ has a generous sponsor. Only a handful of other clubs were sponsored for mer than Dan Humpert sponsored us for this year. We've got the backing now...if thisclub doesn't make it this time around with the money backing it than ~~xxx~~ chances are a club will never be able to make it in cincinnati. If some body has a better ideq as to how this club should be run, or if some body would like to give some suggestions for the club, write them up and send them to me...or just spread it word of mouth.

That is another thing. We really , i really need,some body to take over this news-letter for me. For personal reasons i won't be able to continue writing this thing. I really can't get it together anymore, some one please take it ~~xxx~~ from my hands. Any body interested in doing this thing can contact me and mabey we could work some thing out to make it easy for btch of us to do it, or something.

SPONSORSHIP

This past season, 1976, saw the queen city wheelmen sponsored for the first time. Dan Humpert did the sponsoring under the name of his shop, Montgomery Cyclery-Clifton; chances are next year if sponsored Dan will change the name to Campus Cyclery Inc. The club received approx. \$2,000 from Dan, and this helped the club quite a bit; unfortunately the club did not do much for dan. Many people wondered why he sponsored the club, and he may be wondering now also. Dan got very little return for his efforts and money... The most he got was a lot of grief from club members, how about giving him a little business instead?

With the jerseys the club has now everyone will be expected to wear a club jersey in any USCF competition. USCF rules require you to wear your sponsor's jersey, the club will see to it that action is taken against any member not wearing our sponsor's advertising.

I've roared and complained to you long enough now; if you'd like to get even with me come to the meeting at PJK's on the 28th. Remember we need a new president, a job that isn't as bad as it sounds if you distribute the work. We also need a vice-president... a job that has no formal duties other than taking over the club should we need a new president. Also need someone to take the min. at the meetings, very simple really, you would have the title secretary. Probably have the treas. job wrapped up in the form of Greg Hanbauer. If you want to be an officer but can't make the meeting give me a call at 922-7354 and let me know... we'll work something out.

On the season i'd like to particularly thank STEVIE 3P LANSKY, for being there, and DELL BILLSON, for being hear.
